- (**E**) Cut two 42.5" x 5" strips / (**21.5" x 2.75"**)

Assembly Instructions

Note: If making the mini quilt, substitute the smaller measurements in the instructions below.

1. Let's start by making the cabins! Take one 10.5" x 5.5" rectangle (roof), and two 5.5" background squares. Use the flying geese patchwork guide below to make the roof.

- A. With right sides facing together, align a square on one side of the rectangle. Mark a diagonal line as shown.
B. Sew along the diagonal line, and then trim off the corner 1/4" from sew line.
C. Press the corner open. D. Repeat on the other side.

2. Take the 5.5" x 4.5" rectangle (door) and the two 2" x 2" squares. Make the door corners as shown below.

A. With right sides facing together, align a square on one side of the rectangle. Mark a diagonal line from corner to corner. Sew along the diagonal line, and then trim off the corner 1/4" from the sew line, as indicated by the solid line.

B. Press open. Repeat on the other side.

3. Assemble the house as shown below. Make a total of 5 houses.

4. Next, let's make some trees! Take one 5.5" x 3" rectangle (tree), and two 3" x 3" background squares. Use the flying geese assembly guide from **Step 1** to make four. Then, use the guide below to assemble the trees. Make a total of 5 trees.

5. After you've assembled all the trees and houses, you can assemble the quilt top using the pieces previously cut, as shown below.

Finish it!

Baste the quilt, and then quilt however you please. From your binding fabric, cut five 2.5" strips (or three 2.5" strips for the mini) along the width of fabric. Attach the strips together and bind the quilt. A binding tutorial can be found on my blog, www.QuiltingintheRain.com.

Optional: Embelish the binding by adding lace trim using La Conner Lace Collection for some added charm!
