# Lions & Tigers & Bears - Oh My!

\*\*\*\*\*

## Requirements:

### Lion

12" x 3685Y, 12" x 3646L and  
8" x 3630C.

1 yard orange jumbo Ric-Rac.

### Tiger

12" x 3690P, 12" x 3686Y and  
8" x 3646G

### Bear

12" x 3624L, 12" x 3690W and  
8" x 3650P

Small scrap pink wool felt.

### All Bags

14" Iron on Pellon (Vilene H630).

Fusible web.

COSMO embroidery floss in black 600,  
white 2500 & optional pink 506.

3" x 3" black wool felt.

## 1/4" seam allowance included.

-Magnify your templates to 200%  
before use. Please use the 1" legend to  
ensure that your templates are to scale.

-Fold your piece of main bag fabric in half,  
right sides together. Trace your chosen  
animal's main bag template once onto folded  
fabric and cut out on the traced line.

-Take your piece of iron on pellon  
(Vilene H630) and fold in half. Trace the  
main bag template once onto the folded  
pellon and cut out on the traced line. Iron  
pellon to the wrong side of your main  
bag pieces.

-Take a piece of your face fabric  
measuring 8 1/2" x 9 1/2" and iron fusible  
web of the same size to the back of  
this. Trace your face template onto  
the wrong side and cut out on the  
traced line. Peel paper from your  
fusible web, position and iron the face  
onto the bag front.

-Take a piece of your muzzle fabric  
measuring 5" x 7" and iron fusible  
web of the same size to the back of  
this. Trace your muzzle template  
(and stripes for tiger bag) onto the  
wrong side and cut out on the  
traced line. Peel the paper,  
position the muzzle and iron into  
place.

-Take a piece of black wool felt  
measuring 3" x 3" and iron fusible  
web to the wrong side of this.  
Trace your nose template once and  
eye template twice onto the wrong  
side and cut out on the traced  
lines. Peel paper from your fusible  
web and iron the nose and eyes  
into place.

-FOR BEAR: Take a small piece of  
pink wool felt and iron fusible web  
to the wrong side of this. Trace  
the flower onto the wrong side and  
cut out on the traced line. Peel  
paper from your fusible web and iron  
the flower into place.

-Machine or hand appliqué your  
face, muzzle, (stripes for tiger,  
flower for bear), nose and eyes  
onto your main bag front.

-Mark the mouth, freckles,  
whiskers for lion/tiger and  
eyebrows for lion onto the bag  
front using a pigma pen or pencil.

-Using 4 strands of your black  
COSMO embroidery floss, backstitch  
all marked lines and create the  
freckles with French knots  
(alternatively you can use dark pink  
for the mouth). Using 6 strands of  
white COSMO embroidery floss  
create a pupil in each eye with a  
triple wrap French knot.

-Take a piece of your ear fabric  
measuring 8" x 8" and iron pellon  
measuring 8" x 4" to the back of  
half of this. Fold in half, right sides  
together. Trace your ear template  
twice onto the folded fabric and  
cut out on the traced lines (giving  
2 pieces with pellon and 2 without).

-Take a small piece of your inner ear  
fabric and iron fusible web to the  
wrong side of this. Trace the inner  
ear template twice onto the paper  
side of your fusible web and cut  
out on the traced lines. Iron the  
inner ears onto your ear front  
pieces (with pellon). Machine or  
hand appliqué the inner ears into  
position on the ear pieces.

-Place your ear front and back  
pieces on top of each other, right  
sides together. Sew the ears  
together leaving the edge open for  
turning as indicated on the pattern  
sheet. Turn and press.

-FOR LION: Take your bag front  
and place it right side up. Position  
the ears onto the main bag, right  
sides together, approx 1/2" down  
from the top edge. The raw edges  
of the ears should meet the raw side  
edges of the main bag. Tack in place.

-FOR LION: Position your jumbo  
ric-rac from under one ear to under  
the other. Approx 2/3 should be  
lying over the bag fabric and 1/3 will  
be lying outside the bag. Ensure  
that you angle the ric-rac out  
under the ears so that the ends  
can be trimmed later and will not  
get caught in your sewing. Tack  
into place. Take another length of  
your ric-rac and repeat for the top  
edge of your bag front.

-FOR TIGER & BEAR: Take your main bag front and place it right side up. Position the ears onto the main bag, right sides together, approximately 1/2" down from the top edge of your bag. The raw edges of your ears should meet the raw side edges of the main bag. Tack in place.

-Take your bag front and your bag back pieces and lay them on top of each other, right sides together. Sew the bag together along the side and bottom edges leaving the top edge open. Snip curved and angled edges and turn right side out. Press.

-Take your lining fabric (same fabric as for face) and fold in half, right sides together. Trace the main bag template once onto folded fabric and cut out on the traced line (for tiger lining please omit tufts at the bag sides for lining pieces). These are your bag lining pieces.

-Take your lining front and back pieces and lay them on top of each other, right sides together. Sew the lining together as per the main bag, ensuring you leave a 5" gap along the bottom edge for turning.

-Take your muzzle/inner ear fabric and cut a handle strip measuring 31" x 3". Iron a strip of pellaon measuring 31" x 1 1/2" to the wrong side of half of this. Fold your handle strip in half, right sides together, along the length and press.

-Sew the raw edges of your handle strip together along the length and one of the short ends. Turn the handle right side out by pushing the sewn end in through the handle and out through the open end. Press and cut off the sewn end.

-Top stitch the handle along both long edges and press. Cut your handle into two 15" lengths.

-Pin the bag handles into position on the front and back of your bag. Both raw ends of your handles should meet the top raw edges of your bag and they should be approx 1/2" (Tiger and Bear) or 1 1/4" (Lion) in from the side edges. Tack the handles into position.

-Keeping the main bag right side out and the lining bag right side in, place the main bag inside the lining bag. Push handles between the two layers so they are well clear of the top edge. Carefully sew all the way around the top of the bag catching the handles into this seam.

-Turn the bag right side out through the hole in the seam of the lining and push the lining inside the main bag. Topstitch the top edge of your bag and slip stitch the opening in your lining closed.
